Items being updated in 2017:

- Construction of a more user friendly database (records management system)
- By Law revisions, we learned there are several versions which have been inadvertently used and corrected over time and need to be updated to be consistent with information which has been agreed upon by FCEC membership.

Our treasury has been quite blessed and is strong; God has been very good to us. We need to make sure we are good stewards of his blessings. An annual review of our accounts is underway and should be completed soon.

Please read the upcoming newsletter for information about our Community.

De Colores!
